

Hydraulic Cylinders and Lifting Products

ENERPAC hydraulic cylinders are available in hundreds of different configurations. Whatever the industrial application... lifting, pushing, pulling, bending, holding... whatever the force capacity, stroke length, or size restrictions... single- or double-acting, solid or hollow plunger, you can be sure that Enerpac has the cylinder to suit your high force application. Enerpac jacking cylinders fully comply to ASME B30.1.

(except BRD-Series)

Golden Ring Design

The exclusive Golden Ring Design is a unique bearing design which absorbs eccentric load stresses to protect your cylinder against abrasion, over-extending or plunger blow-outs and jamming or top-end mushrooming. As a result, Golden Ring cylinders provide long, trouble-free operation.

Hardened Saddle

prevents plunger from mushrooming and jamming in the top bearing. Snap-in design.

Plunger Wiper

reduces contamination, extending cylinder life.

Golden Ring

absorbs eccentric loading without galling cylinder parts.

Plated Plunger

resists wear and rust.

Golden Ring

absorbs eccentric loading without galling cylinder parts.

Plunger Return Spring

enables fast plunger retraction on single-acting cylinders.

Note: The cut-away drawing is representative of typical cylinder construction, and may not represent all cylinders in this section.
