

Clip-on & Slide-on Cargo Winches

Complying to AS/NZS 4380-2001

NEW Beaver Truckers'

Mark VI Ratchet Clip-on & Slide-on Cargo Winches LC:3000Kg

Code: 342109-9 Clip-on
C/w 50mm x 9m Blue Polyester Webbing, Hook & Keeper & 2 x 300mm Wear Sleeves.

Complies to AS/NZS4380:2001

The clip-on arms are made of quality steel with a nominal thickness of 12mm to fit on to the rope tie rail for ease of temporary installation.

The Winch Body is rated at 3,000KG Lashing Capacity.

Zinc di-chromate (gold) finish throughout the unit, to prevent corrosion.

2 rolled edge bars to prevent spreading of the winch and to protect the webbing from rolling and catching on an uneven surface.

The winch drum is slotted to accommodate both the 50mm webbing or 6mm Grade 70 Transport Chain to AS/NZS 4344:2001

A lockable latch device to secure the winch by means of padlock to the truck body when not in use.

Double slotted pawl gear lever 110mm long that allows greater safety and tightening of the winch gear which also helps to eliminate the possibility of recoil.

Solid one piece machine geared wheel consisting of twenty one (21) geared teeth.

A blue polyester compliance tag is on all webbing.

Blue polyester webbing with black stitched edges helps to protect the webbing.

5 black stitched lines to indicate a Maximum Breaking Strain of 5000kg. 2 yellow 300mm protective sleeves protects your strap against sharp edges.

The end fittings are zinc di-chromate (gold) finish hook and keeper that are identifiable by the markings Beaver and LC2500kg.

The winch drum is fitted with bearing bush rings for smoother operation.

The winch is flanged at each end to contain/maintain the webbing and assist in the flow of the webbing on to the winch drum.
